RESIDENCY PROGRAM AT
Largo Medical Center

Welcome to the Psychiatry Residency Program at Largo Medical Center

The Psychiatry Residency Program at Largo Medical Center is part of the HCA Healthcare Graduate Medical Education network. HCA Healthcare is the nation's leading provider of quality, patient-centered care. We are also the leader in graduate medical education, all brought together by a single mission:

Above all else, we are committed to the care and improvement of human life.

The Largo Medical Center Psychiatry Residency Program has made it our mission to create compassionate and strong clinical psychiatrists that excel in the leadership of the biopsychosocial treatment team. As a part of HCA Healthcare and the HCA West Florida GME Consortium, we are driven by a single mission: Above all else, we are committed to the care and improvement of human life. We are committed to teaching competent, outstanding physicians in a collegial environment, who are committed to delivering high quality, patient-centered health care, for the good of all people, no matter their circumstance. We provide a clinically and academically rigorous training program that includes a well-balanced curriculum covering acute psychiatric inpatient care, outpatient care developing their own panel of patients as well as working in a collaborative environment with therapist, psychiatric consultation, addiction psychiatry, forensic psychiatry, and more. This experience gives trainees the education required to discern between different therapeutic approaches in an acute care setting, experience in crisis management and experience in stabilization of the patient for successful discharge into the outpatient setting. The strength of our program training is the volume and variety within our community, as well as the depth and breadth of our clinical care, with emphasis on bedside teaching and mastery of clinical skills. With the support and resources of HCA Healthcare GME, our faculty provide our trainees with the skills they need for a successful career, and to develop as a leader in psychiatric medicine. We are dedicated to fostering resident interest in scientific investigation & evidence-based practice.

We are committed to providing a compelling education in psychiatry. Our program spans the wide spectrum of modalities that psychiatry as a specialty offers, allowing considerable exposure in a multitude of inpatient and outpatient settings. We are very excited to offer electroconvulsive therapy here at Largo Medical Center, an important treatment option in the field of psychiatric care. Our medical student education enhances the training of our residents; in helping to teach new generations of physicians, you will grow and solidify your own knowledge.

Our program aims to provide a comprehensive curriculum with exposure to different therapeutic approaches in both an inpatient and outpatient setting, and to be advocates for community psychiatric wellness. We strive to provide our resident physicians with the necessary clinical skills to be competent, compassionate, patient-centric psychiatrists, and the tools to develop professional relationships and collaborate with interprofessional teams and colleagues across the professional continuum, and have a strong impact on public health throughout the communities we serve. We are committed to guiding competent, outstanding physicians into being efficient and effective psychiatrists. The hard work and dedication invested during residency here will lead to countless rewards for not only yourself, but each and every patient you serve.

About the Program

The Psychiatry Residency Program located at Largo Medical Center is a Statutory Teaching Hospital designated by the Florida Agency for Health Care Administration (AHCA). Our program is fully accredited by the ACGME and affiliated with the University of South Florida Morsani College of Medicine. We are dedicated to meeting the health care needs of the community we serve.

Our residency program and program faculty are committed to maintaining high standards of educational quality. Resident physicians are first and foremost learners. Accordingly, a resident's educational needs should be the primary determinant of any assigned patient care services. Residents must, however, remain mindful of their oath as physicians and recognize that their responsibilities to their patients always take priority over purely educational considerations.

MedHub

All the residency programs at Largo Medical Center use a web-based, residency management system called MedHub to process evaluations, update vital information as well as submission of timesheets. Additionally, you will enter your scholarly activity in MedHub throughout your training.

Evaluations

Attending Evaluations of Residents, Resident Evaluations of Faculty, and Resident Evaluations of Service will be completed on MedHub. These must be completed and signed by all required parties and should be submitted within 2 weeks of the end of each block.

Clinical Skills Evaluations

The clinical skills evaluation (CSE) is an American Board of Psychiatry and Neurology (ABPN) requirement for all residents. Each evaluation focuses on three components: physician-patient relationship, psychiatric interview including mental status evaluation, and case presentation. Our program conducts CSEs annually. The evaluations are valid for 7 years after the completion of residency training. For more information, check out the ABPN website.

Milestones

ACGME has implemented milestones as a framework for determining resident performance within the six ACGME Core Competencies. Essentially, they are competency-based developmental outcomes. Further information can be obtained at the ACGME website.

Duty Hours

Standard Service Hours are from 7:00am to 5:00pm, Monday – Friday.

- Psychiatry Didactics will be at 12:00pm – 1:00pm Monday – Thursday.
- Weekday Call: 7:00am-7:00pm; Weekend Call: Primary 7:00am-7:00pm, Secondary 7:00am-2:00pm, home call 2:00pm-5:00pm, Tertiary 7:00am-2:00pm

Rotation Sites

The primary site for Psychiatry residency is at Largo Medical Center, Indian Rocks. Other training sites include: Behavioral Healthcare Options, Bywater Mental Health, Bay Pines VA, Florida Behavioral Medicine, Pinellas County Sheriff's Office, and SunCoast Center.

The Psychiatry Residency Program recognizes the importance of training caring individuals who can practice their specialty while displaying knowledge and the humanistic qualities that come with being a psychiatrist. We are dedicated to providing the support and resources needed to become an exceptional physician.

Largo Medical Center

Largo Medical Center is designated a Statutory Teaching Hospital by the Florida Agency for Health Care Administration (AHCA) with ACGME-accredited residency and fellowship programs in:

- Transitional Year
- Cardiovascular Disease Fellowship
- Dermatology
- Gastroenterology Fellowship
- Internal Medicine
- Pulmonary/Critical Care Fellowship
- Orthopedic Surgery
- Rheumatology Fellowship
- Psychiatry
- Interventional Cardiology Fellowship

Our program is dedicated to providing the highest quality graduate education for those who come to Largo Medical Center from medical schools across the nation. We are excited and honored to extend to you this opportunity to participate in our Postgraduate Medical Education Program. We believe that continuing your education here at Largo Medical Center would be a vital, meaningful part of your medical training. Through our affiliation with University of South Florida Morsani College of Medicine and the Bay Pines VA Health Care System, we are offering our students and physicians an excellent educational experience.

Our dynamic, clinical teaching faculty and staff are eager to share with you their knowledge and experience. Largo Medical Center's teaching staff is a combination of both Doctors of Osteopathic and Allopathic Medicine. The "hands on" approach to teaching and learning in our Postgraduate Medical Education Program will provide you with priceless opportunities to participate in patient care and management.

We are proud of our hospital's achievements, the quality of care and the many important services and educational programs we provide to the people of our community. It is our hope that you will soon become a part of our exceptional team of medical professionals here at Largo Medical Center. We look forward to working with you in your endeavors to achieve your medical career goals.

Largo Medical Center is more than a provider of medical excellence, it is a hospital where we take our mission statement seriously –

Above all else, we are committed to the care and improvement of human life.

- Largo Medical Center is a 455-bed acute care hospital located on three campuses
- Located in mid-Pinellas County on the West Coast of Florida, the hospital provides medical care for the residents of Largo, Clearwater, Seminole, and many of the Gulf Coast beach communities

Product lines and services include:

- 24/7 Emergency Care (3 campuses)
- Behavioral Medicine
- Cardiovascular Services
- Center for Wound Care and Hyperbaric Medicine
- Comprehensive Stroke Center (coming soon!)
- Florida Breast Institute
- Hepatobiliary Center
- Palliative Care Services
- Robotic Surgery
- Transplant Institute of Florida (Kidney, Liver and Heart)

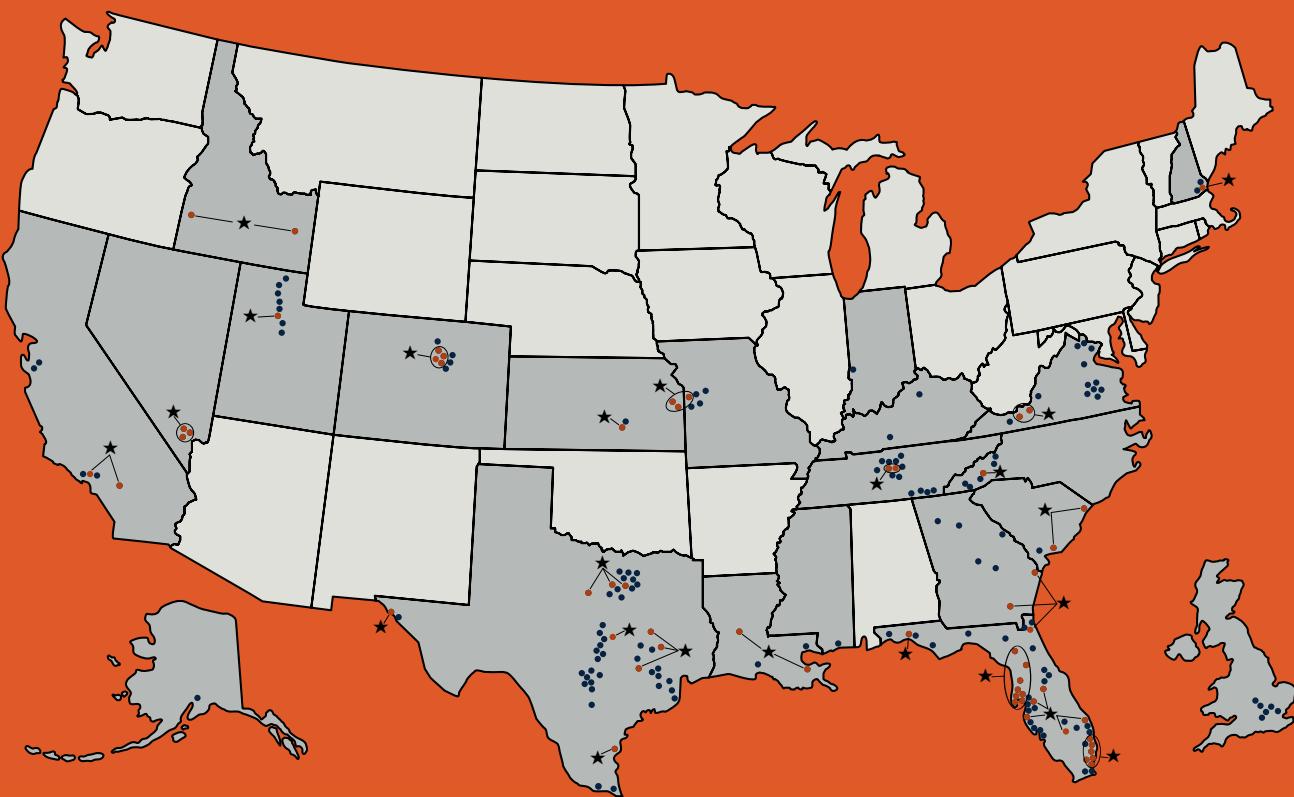

About HCA Healthcare GME

HCA Healthcare is a comprehensive healthcare network with over 275,000 colleagues across more than 2,000 care facilities all committed to creating a positive impact every day. We continually invest in our colleagues and facilities to better serve our patients and local communities. The Graduate Medical Education (GME) programs seek to inspire tomorrow's physicians to care for and improve human life by focusing on patient-centered approaches to practicing the latest evidence-based medicine.

Scholarly Activity

HCA Healthcare Graduate Medical Education provides a critical link between vigorous scholarly activity and real-world patient care from a sophisticated data repository of more than 32 million patient encounters each year.

2,500+ HCA Healthcare GME scholarly activities in 2020-21.

Clinical Training

Each year approximately five percent of all U.S. hospital services happen at an HCA Healthcare facility, including:

32+ million patient encounters
7.4 million emergency room visits
215,000+ babies delivered

HCA Healthcare Graduate Medical Education is a leader in clinical experience.

- Nationally known physician expertise across the country
- Investments in facilities allowing the advancement of patient care
- High emphasis on simulation results and low patient incidents
- Higher patient touch than academic facilities
- Annual collaborative mass casualty event team training

A commitment to scholarly activity

Based on more than 32 million patient encounters each year, our scholarly activity bridges the gap between compelling evidence and exceptional patient care.

Influential Collaboration

HCA Healthcare residents and fellows have access to talented, highly skilled teams of faculty, industry experts and dedicated researchers to guide them through their journey. Residents and fellows produce evidence that drives future practice by leveraging HCA Healthcare's national clinical data warehouse – the heart of our data ecosystem.

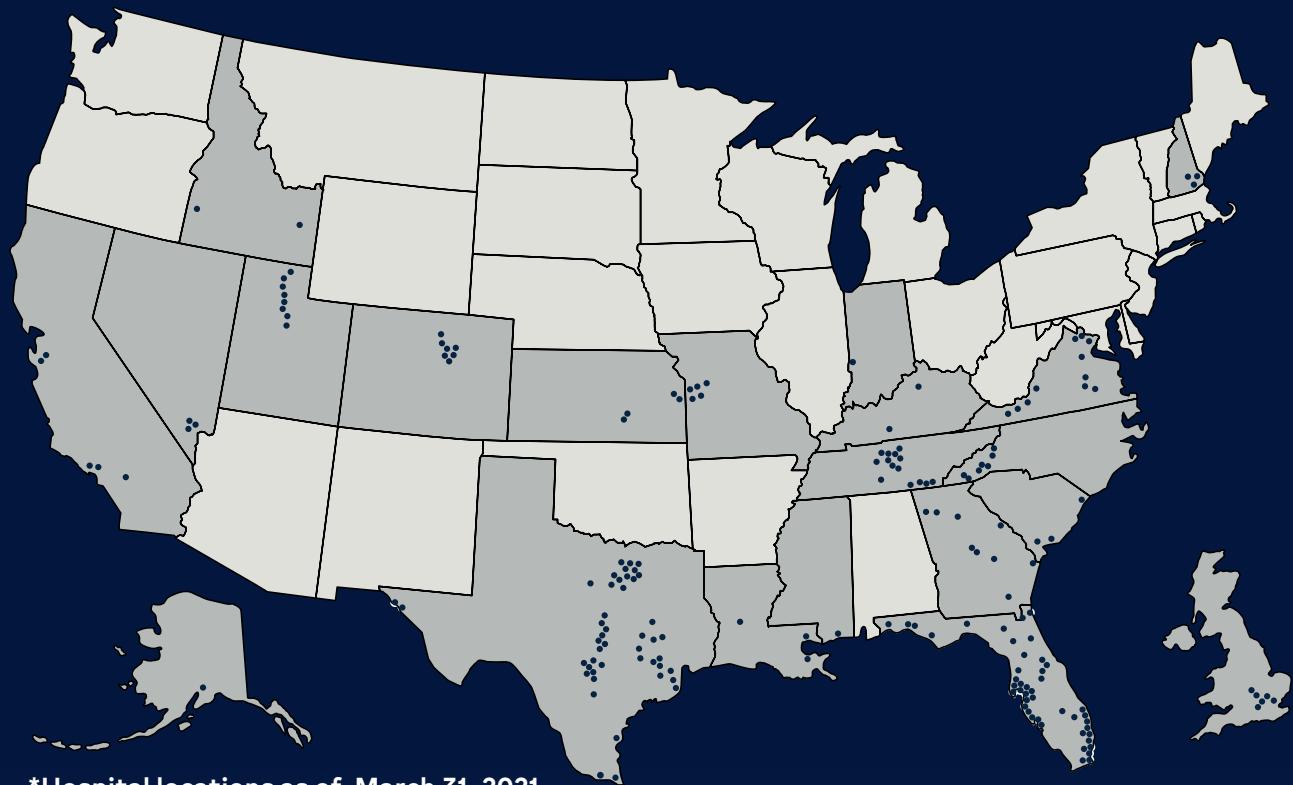

HCA Healthcare Scholarly Commons is a platform to collect, share and publish the variety of academic work created by the Graduate Medical Education community. During 2020, readership of those works eclipsed the 25,000 mark. Included on this platform is the **HCA Healthcare Journal of Medicine**, a peer reviewed scientific periodical focused on innovation, enhanced quality and developing new knowledge in clinical care and medical education for the benefit of all patients. In its first year of publication, the journal disseminated 86 articles in six issues as well as a seventh special issue on the COVID-19 pandemic.

About HCA Healthcare

HCA Healthcare is one of the nation's leading providers of healthcare services and is comprised of 186 hospitals and more than 2,000 sites of care including surgery centers, freestanding ERs, urgent care centers, diagnostic and imaging centers, walk-in clinics and physician clinics in 20 states and the United Kingdom. With its founding in 1968, Nashville-based HCA Healthcare created a new model for hospital care in the United States.
